

BHAGAT JI **ENTERPRISES**

Laying Foundations for Tommorow

ABOUT US

Bhagat Ji Enterprises is a leading infrastructure and construction company based in Muzaffarnagar, Uttar Pradesh. With over 30 years of experience, we specialize in underground utility development, civil construction, and turnkey infrastructure execution.

Our services include:

- Aerial & Underground Optical Fibre Cable (OFC) Laying
- Power, Copper, Coaxial, Gas, Water & Sewer Pipelines
- Building and Road Construction

We've delivered major projects for BSNL, Reliance Jio, RCOM, Railtel, L&T, and MES, and proudly contributed to many BharatNet (NOFN) projects.

Equipped with skilled professionals and modern machines like HDD rigs, splicing units, and OTDRs, we deliver projects with efficiency, safety, and long-term quality.

"At Bhagat Ji Enterprises, we build more than infrastructure — we build trust and progress."

WHY CHOOSE US ?

Clients across India rely on **Bhagat Ji Enterprises** because of our experience, reliability, and complete project capabilities.

What Makes Us Different:

- Multi-Sector Expertise: OFC, power cables, pipelines, roads, and buildings — all under one roof.
- Skilled Workforce: Engineers, HDD operators, splicing experts, and on-site supervisors.
- In-House Machinery: From HDD rigs to OTDR machines — ensuring control, speed, and quality.
- Full Compliance: Registered under GST, EPF, ESI. Enlisted with BSNL and MES.
- Turnkey Project Handling: From survey and approvals to execution and final documentation.
- Trusted by Big Names: Repeat projects with BSNL, Jio, RCOM, RAILTEL, MES, and more.

"Your vision, our execution — on time, on target."

VISION

"To be a trusted leader in India's infrastructure growth by delivering reliable and future-ready engineering solutions."

MISSION

"To build high-quality utility and civil infrastructure that connects, empowers, and endures — with safety, professionalism, and integrity."

VALUES

- Integrity - We stand by our word
- Excellence - Every project, top-notch
- Innovation - Smarter, faster execution
- Teamwork - Together, we build
- Commitment - We deliver what we promise

"We are not just building today — we're laying the foundation for tomorrow."

LIST OF MACHINERIES

Horizontal Directional Drilling Rig – (18–32 Tonne)

Quantity: 11 Units

High-capacity trenchless drilling rigs for laying OFC, gas, oil, and water pipelines without surface disruption. Ideal for road, railway, and water crossings, ensuring minimal environmental impact and high precision.

Backhoe Loader – JCB

Quantity: 2 Units

Versatile earthmoving machines used for excavation, loading, and material handling. Perfect for site preparation, trenching, and heavy-duty lifting in construction projects.

Close Body Container Trucks

Quantity: 6 Units

Heavy-duty transport vehicles for safe and secure material movement across project sites. Equipped for long-distance and bulk transportation.

Tractors and Water Tankers

Quantity: 8 Units

These vehicles boost construction efficiency: multi-utility vehicles for projects, tractors for precise tasks, and water tankers for continuous supply.

WORK EXPERIANCE AND PROJECTS

Sr. no.	Project Name / Description	Client / Owner	Quantity / Value	Contract Status
13.	GE/DDN/13 OF 2017-18	GE Dehradun Cantt	₹ 35,08,313.00	Successfully Completed

SPECIALIZING IN UNDERGROUND OFC AND COPPER COAXIAL CABLE LAYING

Underground and Aerial Optical Fibre Cable (OFC) Laying

We are experts in **Underground OFC Installation** through **Horizontal Directional Drilling** (HDD) and conventional trenching, as well as aerial deployment. Our work powers India's digital future in telecom, broadband, and enterprise networks.

Scope Includes:

- Route survey, duct laying, blowing & splicing
- HDD, GI/DWC/HDPE duct installation
- OTDR testing & documentation
- Projects: BharatNet (NOFN), BSNL, Jio, RCOM, RAILTEL

"We lay the backbone of India's connectivity."

Copper & Coaxial Cable Laying

Specialized in underground copper and coaxial cable networks used in legacy telecom, cable TV, and voice systems.

Our Expertise:

- Safe trenching and jointing
- Maintenance and fault repair
- Trusted by BSNL and defense sectors

"Our copper networks still power essential communication lines."

GAS AND OIL PIPELINE

We deliver safe and efficient pipeline systems for gas and oil distribution — using trenchless and open-cut methods.

Services Include:

- Survey, trenching & HDD under roads/railways
- GI, MS, HDPE, MDPE pipeline laying
- Jointing, hydro testing, cathodic protection
- Pressure testing & safety compliance

“We build energy pipelines with safety and precision.”

POWER CABLE & WATER SUPPLY

Power Cable Laying

We install HT/LT underground power cables for government and industrial networks.

Scope Includes:

- XLPE, armoured cable laying
- Jointing, insulation, ducting, fault testing

“Every cable we lay lights up homes, roads, and industries.”

Water Pipeline Laying

We install durable underground water supply systems for cities and villages.

Services Include:

- HDPE, DI, GI, PVC pipelines
- Jointing, valve chambers, hydro testing
- Compliance with Electricity Boards, PWD, Jal Nigam, Smart City norms

“We deliver the pipelines that sustain life.”

BUILDING CONSTRUCTIONS

We construct strong, functional, and compliant buildings for **defense**, **government**, and **institutional** use.

What We Build:

- MES buildings, boundary walls, military housing
- Schools, admin blocks, storage & utility structures
- RCC framework, finishing, electrification, plumbing

Experience Includes:

- MES works in Meerut, Dehradun, Roorkee.
- Mandi Parishad construction & repair projects.

“From blueprint to handover — we build with purpose.”

ROAD CONSTRUCTIONS

We specialize in end-to-end road development, supporting public infrastructure across villages and towns.

Scope of Work:

- Earthwork, GSB, BM, C.C. & B.T. surfacing.
- Side drains, kerbs, road markings.
- Paver block installation, widening & rehabilitation.

Machinery:

Rollers, mixers, cutters, tankers and Pavers

Projects Delivered For:

- MES, Mandi Parishad, Local Bodies

“We build roads that connect people, places, and progress.”

Trenchers

Quantity: 2 Units

Specialized machines for fast and precise trench cutting to lay cables and pipelines, reducing manual labor and project time.

Splicing Machine – Fujikura

Quantity: 2 Units

High-precision machines for joining optical fibers with minimal signal loss. Essential for building reliable OFC networks.

OTDR Machine – Viavi

Quantity: 2 Units

Advanced Optical Time Domain Reflectometers for testing, fault detection, and certification of fiber optic cables.

OFC Blowing Machine

Quantity: 2 Units

High-performance units designed for rapid installation of optical fiber cables into ducts, enabling long-distance and high-speed deployment.

Air Compressor

Quantity: 2 Units

Portable high-pressure compressors used in cable blowing, cleaning ducts, and other pneumatic operations at project sites.

Own Transport Vehicles – Our fleet of trucks, tractors, and loaders ensures complete logistical independence, enabling faster mobilization and timely project completion.

OUR SAFETY & QUALITY POLICY

Safety Policy

At Bhagat Ji Enterprises, safety is a core value. We ensure that all our worksites follow strict safety practices — not just to meet legal requirements, but to protect every life on-site.

Key Measures:

- Mandatory use of PPE (helmets, gloves, jackets, shoes)
- Regular safety training & toolbox talks
- Safe machinery operation, barricading, signage
- Appointed safety supervisors for every active site
- Compliance with MES, CPWD, and BIS safety norms

“Safety is not an option — it’s our responsibility.”

Quality Policy

We are committed to delivering error-free, durable, and technically sound infrastructure solutions. Every step of our work follows rigorous quality control protocols.

Our Focus Areas:

- Strict adherence to client specs (MES, BSNL, CPWD, etc.)
- Use of certified materials from approved vendors
- Regular quality inspections, documentation & audits
- Skilled manpower and well-maintained equipment
- Timely delivery without compromising quality

“We don’t finish a project — we perfect it.”

OUR EXPERTISE

Over the last 30+ years, Bhagat Ji Enterprises has evolved into a multi-disciplinary infrastructure company — capable of handling complex and large-scale projects across sectors.

Areas of Expertise

OFC Laying

Copper & Coaxial
Cable Networks

Gas, Oil, Water &
Sewerage
Pipelines

Power Cabling &
Electrification
Works

Civil Construction
(Govt. &
Institutional)

Road Construction
(Urban, Rural,
PMGSY)

Turnkey
Infrastructure

What Sets Us Apart:

- In-house machinery and tools
- Expert project planning and execution
- Government-compliant and certified operations
- Safety-first, documentation-complete approach

PROPRIETOR & MANAGING DIRECTOR

At Bhagat Ji Enterprises, we don't just build infrastructure, we build trust, reliability, and long-term value.

DHARAMVEER BALIYAN

DIRECTOR OF OPERATIONS

Operations are the backbone of execution and at Bhagat Ji Enterprises, we ensure they are seamless, safe, and scalable.
